VOLUME XXXV

TOMBSTONE, COCHISE COUNTY, ARIZONA, SUNDAY, SEPTEMBER 12, 1915

NO. 45

NATURALIZATION DAY IN COURT MONDAY

Uncle Sam Will Be Very Strict with All Applicants Hereafter

Special examiner Jones representing the Naturalization department of the United States, arrived here this morning to go over the papers of those who will be examined for citizenship on Monday next, of which there 75 applicants.

Mr. Jones states that hereafter the Government intends to make the examination of applicants much more careful than they have in the past as war in Europe has developed the fact that any number of allies who swore their allegiance to the United States have violated their oaths and at first call have gone back to their former respective countries and taken up arms.

It is believed that the Government has a number of special agents at work gathering facts in regard to those who have recently gone to fight their former countries as well as those who have recently returned and may attempt to stop others from returning when facts are shown that they had taken part in the war.

LARGEST SHIPMENT OF ARIZONA HONEY TO EAST

PHOENIX, Sept. 11—William Loring, pioneer honey producer of the Salt River valley, inaugurated the first bee special yesterday when he loaded what is said to be the largest single shipment of honey ever sent out of Arizona. Ninety thousand pounds of sweet stuff was placed in a car on the Santa Fe tracks and this morning will leave for the north, en route toward Cincinnati, where it will be turned over to the consignee.

The honey was shipped in five gallon tins, having been collected and strained here in the valley.

"SUPERINTENDENT" ON TIME AND NEVER MISSES A SHIFT

Parties coming in from Pearce bring a good story of the intelligence of the big brown horse, Jim, that is used on the whim in the Commonwealth Extension property. Jim is kept at the McFall stables, and was taken out to work every morning by the man who looks after him at work. One morning he turned the horse loose and was surprised to see him go from the stable direct to the shaft where he is now employed. Now the horse is turned loose every morning at 6:30 with his noon feed of barley tied to his shoulder, and the horse goes direct by the path to the shaft and waits until he is harnessed up, does his daily work and then is turned loose at night with the empty nosebag on his neck and goes back to the stable. He has been nicknamed the "Superintendent" by the Pearce people, because he is as regular as clockwork in going to and from work.

From everyone who went from Douglas yesterday to attend the Labor Day celebration in that city comes the report that they were received and en-

GOING AFTER THE MAIL ORDER HOUSES

Bill Pending in Congress and Arizona Business Men Should Lend Support

PHOENIX, Sept. 11—That the mail order houses should pay the privilege of doing business in the communities from which they derive revenues is the opinion of National Association of Businessmen, which has instituted a campaign throughout the country in favor of the Hinebaugh bill now pending in congress. The headquarters of this association are in Milwaukee where the Merchants Trade Journal, the organ of the association is published. A Washington headquarters, in charge of J. C. Atchison, is about to be established.

C. C. Gustafson, a representative of the association, is touring Arizona to ascertain the sentiment here with respect to the Hinebaugh bill, and he has secured the signatures of nearly all the business men whom he met at Phoenix to a petition to Carl Hayden, requesting his support of the measure.

STATE FAIR WILL HAVE MANY RACE-HORSE ENTRIES

PHOENIX, Sept. 11—Entries for the horse events will close in Phoenix on the night of Oct. 1st. By that time all the entries will be on hand and a full list of the splendid specimens of horse flesh that are to perform for the admiring thousands are compiled. Already inkings of what is expected are coming over the line indicating a splendid paddock. As is generally the custom, in order to give the greatest incentive to the owners and enterers of horses for the events for the Great State Fair, Nov. 15th to 20th, inclusive, letter registered for Phoenix on the night of Sept. 30th will be accepted by the commission and entered. Entries for Arizona colt race will close September 25.

Entered with the same spirit that prevailed throughout the southwest in the good old days of '79 when Tombstone was at the height of its importance as the greatest gold camp in the southwest. There were a number of the old boys present who have remained with Tombstone through prosperity and depression since the first stakes were driven on the townsite. They were all happy and rode in front of the procession in the old Modoc stage around which clusters so many historical and hair-raising incidents.

Tombstone is today getting back into a condition of prosperity and it is quite natural that those who have remained strong in the faith of a future day as great as the past should be in the humor to make their guests welcome.

The Bunker Hill company is now working more than three hundred men. The results being obtained are said to be most excellent, and the outlook for an increase in the operations there are good. The methods used for treating low grade ore are proving their success, and the low grade deposits of the district are believed to be more valuable than the high grade which gave the old camp its glorious past.

With returning prosperity the Tombstonites will be in the humor not to worry when the people of the county get ready to move the county seat to Douglas—Douglas International.

TURKISH SNIPER DISGUISED AS A BUSH.

MILLION DOLLAR CASE WILL GO TO JURY ON INTERROGATORIES

The closing of the third week of trial of the Cunningham-Costello case brought to a close the taking of the testimony but it now looks as though it would take another week to conclude the arguments and the submission of the interrogatories to the jury and that body given time in which to answer them. After discussion the court held that the jury would be given all questions that pertained to facts that were controverted and in which there was any evidence to support the facts but no questions would be allowed that were not supported by evidence. The plaintiff announced that it had prepared forty-four questions to be submitted and the defense announced twenty-two.

The case will probably not go to the jury on the interrogatories until about Wednesday.

Episcopal Church

There will be morning services at the Episcopal Church, Sunday at 11 a. m., Rev. E. H. Simonton of Douglas officiating. Communion will be given at these services. All are invited to attend.

Returned from Douglas

Attorney Harry E. Pickett returned home this morning from a brief visit to Douglas, where he went on business for his clients.

Brings in Prisoners

Deputy Sheriff Chas. Cross brought in two prisoners for the county jail this morning from Douglas.

To Douglas

Sheriff Harry C. Wheeler went to Douglas yesterday on matters connected with his office returning home this morning.

Fine Water Flow

Miss Elizabeth Astell came in from her ranch in the Government Draw yesterday for a brief visit. Recently a fine flow of water was struck in a well right near the house, and which is considered one of the best in that section.

Catholic Church

Rev. U. Favala, of Yuma, arrived last evening and will conduct services at the Catholic Church tomorrow. First mass at 8 a. m. Second mass at 9:30 p. m. Rosary and benediction of the Blessed Sacrament at 7:30 p. m. Sunday School immediately after second mass.

LOOKING BACKWARD 24 YEARS IN TOMBSTONE

Interesting items that appeared in the "Prospector," this Date, 1891; Reminiscent of the Pioneer Days

J. J. Williams of Phelps, Dodge & Co's interests in Arizona copper mines is visiting Bisbee.

Allen Walker has purchased the soda plant at Bisbee and is doing well with it in connection with his Tombstone business.

R. W. Wood has returned from the first business meeting of the railroad commissioners with increased knowledge of people and things.

If the proper pumping machinery be put in the Tombstone mines that town will enjoy an era of permanent prosperity never before known to Cochise county. Millions have been taken out but millions yet remain in the deeper workings and will be unearthed, we hope, in the near future. In no country under the sun, outside of Arizona, would such known richness be allowed to lie year in and year out, without an effort being made for its extraction.

The Copper Queen Company are erecting a new hoist on the Holbrook mine at Bisbee. It will be, when completed, one of the most complete and expensive hoists in southern Arizona.

Congregational Church

Rev. J. H. Heald D. D. of Albuquerque arrived this morning and will preach morning and evening at the Congregational Church, Sunday the 12th. All are invited to attend. Evening service will begin at 7:30. Sunday School 10 a. m. and Christian Endeavor Society will meet at 7 o'clock.

Leave for Tempe

Mrs. Geo. Thiel and daughters, Miss Nora and Nella leave Sunday for Tempe, where they will reside during the school year, the girls entering Tempe Normal.

To Wilcox

Dr. C. A. Morris, dentist, left yesterday for Wilcox, on his regular visit to that section. He will be gone several days.

GLEESONITES ENJOYED TOMBSTONE LABOR DAY CELEBRATION

GLEESON, Arizona, Sept. 10.—F. Lawhorn, of Texas, owner of the Balis McKinney ranch, shipped his cattle to Texas from Kelton station this week. His son will reside at the ranch.

Ben Baker is visiting Mrs. L. Short, his grandmother, at Webb. Mrs. John Gleeson and daughter, Miss Nellie, are spending several weeks in New York visiting relatives.

B. B. Miller, one of R. A. Taylor's clerks, left a day or two ago for Douglas for a two weeks visit.

A. R. Spikes, principal of Gleeson School last term, returned this week from California points where he has been spending a part of his vacation. He is now visiting his parents in Douglas, previous to taking a position as teacher at Bowie.

Miss Lizzie Kries leaves this week for the Tempe Normal for the coming school term.

A large number of people from this vicinity went to Tombstone on the 6th to take in the big celebration. And generally they report having spent the day in an enjoyable way. Everything went off as fine as could be. The victors from here counted the day a grand success. Visitors from this place and surrounding country included Mr. Lefe Gibson, Mrs. L. M. Brown and children, Messrs. Tom Cole, Jasper Gibson, Pete Wins, B. A. Taylor, Dr. Stroud, Mr. and Mrs. Tom Lannon and grandson, Harry Bishop, Miss Lila Terry, Mr. and Mrs. Mart Effinger, Walter Gibson and Miss Sallie Terry.

Excused Until Sept. 20th

Judge Leckwood has issued an order excusing the members of the jury panel not engaged in the trial of the Cunningham Costello case until Monday morning September 20th. The jurors were excused until Monday the 13th but that day is given up to the hearing of naturalization applicants and the Cunningham-Costello case will not be completed before the last of next week so that there will be no need of the jurors reporting. The trial of criminal cases will be resumed on that date. This notice may be accepted as an official notice from the Court as it was given out with his sanction.

To Normal School

Among the Tombstone girls who left today for Tempe, where they will enter the Tempe Normal were Miss Emma Tracey, Miss Ester Buchanan and Miss Emma Escapula.

FORMER TOMBSTONITES ARE MARRIED

"Buck" Buchanan, Well Known Bachelor, and Mrs. J. Davis Wed

The "Prospector" is in receipt of a communication from Silver City, N. M. which states that recently Wm. Buchanan, formerly of Tombstone, who conducted the Red Barn Livery, while here, and Mrs. Jim Davis were joined in marriage, and expect to leave for Tombstone shortly to make their future home. The letter was signed "An old friend to both Buck and wife." Both the bride and groom have many friends here who will be surprised to hear of their marriage as it was thought by "Buck's" many friends here that he had forever joined the ranks of bachelorhood. He is a man of sturdy western quality and is an old pioneer in this section. Mrs. Buchanan was formerly Mrs. Jim Davis, of this city, and resided here for many years. The couple have a host of friends here who extend congratulations.

MINERS SHORT COURSE MAY BE TAKEN SEPARATELY

Among the many inquiries received relative to the Short Course for Miners at the College of Mines & Engineering of the University of Arizona there seems to be some misunderstanding as to when a man may enter or leave a course.

The sole idea of the course as given is to give an intensive study of one subject for two weeks; each two weeks course is an individual and separate course, although related to the one given previously and the one following, and each course may be taken separately. Hence a student may enter at the beginning of any one of the 18 courses to be given and stay 2, 4, 6 or any number of weeks.

More Booze

Deputy Sheriff Percy Bowden returned today from Douglas bringing back the 15 cases of whiskey taken from the bootleggers captured there Wednesday. Fifteen cases is a mighty lot of booze and as it was being taken to the storeroom to be held as evidence it was painful to watch the court house hangers-on give a longing look coupled with a mournful sigh, and think of bygone days.

Farewell Party

Farewell party in honor of the Misses Nora and Nella Thiel was given at the home of Mr. and Mrs. Geo. T. Bowen last evening, and about thirty young folks were present. Dancing, coupled with games, music and singing passed away an enjoyable evening, and delicious refreshments of cake, candy, punch and a treat of ice cold watermelon were served about 10:30.

Prisoner Escapes

The Sheriff's Office has been advised that Frank Moreno one of the prisoners held at the camp in Tombstone Canyon escaped last evening. He is 18 years old has a small moustache, and scars on the back of his hand, hair curly. He was sent up from Maricopa on a charge of burglary for a term of 12 to 14 months. He was dressed in prison clothes.

THE SAN DIEGO EXPOSITION A WONDER

Staff Correspondent Visits Big Show; Says Its Unsurpassed for Beauty

(By Our Staff Correspondent)
SAN DIEGO, Cal., Sept. 10.—He who has not seen the exposition here in San Diego has missed one of the most beautiful shows ever given for a sight-seeing public. Not from a point of exhibits, for they are not very strong, but for a compact setting in Nature's very own, it has all the expositions pushed off into the discard. For three years and over nature, assisted by the ingenuity of man and a liberal supply of water, has surrounded the beautiful array of Mission buildings with a perfect wonderland of horticultural growth that runs riot in flowers, shrubbery and trees. The grounds are a dream and dreamland is appropriate for the Spanish architecture, and the entire atmosphere of the place is one of rest, contentment and pleasure. Outside of the local exhibits, confined mostly to the state, the grounds and buildings overshadow all else, and there is not much to be said other than that the war handicapped the best little show ever attempted by man. One of the most interesting sights is the pigeons of the plaza. Another is the great outdoor organ, the largest in the world.

One of the nightmares is the uniform of the Exposition Guards. Of all the riots of fighting colors and misconception of a costume this one worn by the exposition guards here is the pinnacle of absurdity.

San Diego is to be congratulated on her effort, and it is pleasing to know that the grounds are permanent, and most of the buildings are to be kept standing. Balboa Park, as it is called, consists of 1400 acres of common cactus-covered gulches and mesas that have been transformed into the most beautiful all-year-round park in America, the beauties of which at only three years of age are almost indescribable. This park should be one of the playgrounds of Arizona people who think they must come to the coast. With the completion of the Spreckles road, now under construction between this place and Yuma, Arizona will be many miles and many hours closer to the ocean than at present. For rest, pleasure, comfort and climate San Diego makes Los Angeles an "also ran."

When one sees this fair he cannot help but see where Arizona missed her one great opportunity to advertise her wonderful resources, and it is a shame that our Legislature exhibited such a niggardly policy. People are wild for Arizona and New Mexico advertising, and take it from me New Mexico is not overlooking a single bet. She has the best state building, best state exhibit, and is taking advantage of every avenue of publicity. Thousands go daily to her building. Arizona is the loser. Without any outside aid San Diego has done wonders. Frisco next.

Visiting Friends

Mrs. W. Hunter and granddaughter of Bisbee are spending several days in Tombstone the guest of Mrs. A. Noyes.

From Douglas

County Attorney J. F. Ross, returned home yesterday from Douglas, where he went on matters connected with his office. While there Mr. Ross conducted the preliminary of the bootleggers captured by Deputy Sheriffs Bowden, Rafferty and Brakefield.
